AUSTRALIAN PAEDIATRIC JOURNAL

INDEX TO VOLUME 17, 1981

AUSTRALIAN COLLEGE OF PAEDIATRICS

CONTENTS

No. 1, MARCH, 1981

Uniform requirements for manuscripts submitted to the *Australian Paediatric Journal*
Editorial Comment — Developmental screening in infancy — a critical appraisal of its value 1
Report of an expert committee for the Australian College of Paediatrics — Sudden infant death syndrome 2
Letters to the Editor 4
"A Man and his Hospital" — The Clubbe Oration, 1980 *Peter G. Jones* 5
A critical appraisal of myelography at the Royal Children's Hospital, Brisbane, 1977-1979 *N. Miller and J. P. Masel* 15
Developmental screening in infancy — a critical appraisal of its value *Allan Carmichael and Howard E. Williams* 20
Alcohol consumption of Tasmanian High School pupils
Patrick Lynch, David Woodward, Malcolm Waters, Isobel Kirk, Andrew Maclean, Wendy Rockcliffe and Patrick Reid 24
Screening for learning problems in the first year at school *E. J. R. Rossiter and J. Luckin* 29
Massive pulmonary haemorrhage: a cause of sudden unexpected deaths in severely growth retarded infants
Peter D. Sly and John H. Drew 32
Patterns of management responsibility in the care of children with cystic fibrosis and leukaemia
Michael I. Frydman 35
Characteristics of Down syndrome infants and their families *P. Berry, P. Gunn, R. Andrews and C. Price* 40
Urinary β2 microglobulin in the newborn *K. P. Dawson and D. Yeoman* 44
Fatty acid composition of infant formulae *Robert A. Gibson and Garry M. Kneebone* 46
A simple method of duodenal juice collection in association with small bowel biopsy in children
Rodney P. K. Ford 54
The tube spacer in children with asthma
Peter P. Van Asperen, Craig M. Mellis, Raymond T. South and Sylvia J. Simpson 56
Infant botulism in Australia — a case report
Lloyd K. Shield, Russell G. Wilkinson, Margaret Ritchie and Stanley Korman 59
Recurrent brainstem dysfunction preceding systemic manifestations of childhood lupus erythematosus *W. Y. Lui* 62
Möbius syndrome in a patient with α1 antitrypsin deficiency *Roy Beren and Geoffrey P. Davidson* 64
Britsh Paediatric Association Classification of Diseases 58
Publications received 63
Book reviews 66
Reviewers — 1980 68

No. 2, JUNE, 1981

Sir Lorimer Dods, 1900-1981 70
Letters to the Editor 75
Statement on immunization of low birthweight infants 76
Editorial Comment — The hazards (?) of thermometry 77
Real-time scanning of the neonatal brain
Lachlan Ch. de Crespigny, Hugh P. Robinson, Laurence J. Murton and Colm O'Herlihy 78
Intravenous cephamandole pharmacokinetics and intramuscular bioavailability in neonates
N. Buchanan, P. Doyle and M. Cvejic 83
Family responses and mechanism of adjustment following death of children with cancer
Imas H. Jurk, Henry Ekert and H. Julie Jones 85
The treatment of malabsorption in cystic fibrosis with pancreatic extracts and inhibition of gastric acidity by antacids and cimetidine *E. A. Mitchell, Alison W. Wesley and R. B. Elliott* 89
Broken and retained rectal thermometers in infants and young children *James T. K. Lau and G. B. Ong* 93
Newborn transport in metropolitan Sydney: experience with a newborn intensive care unit based regional transport service *Peter A. Barr, Jennifer A. Suthers and Garth I. Leslie* 95
Playground equipment and accidents
T. I. Oliver, J. P. McFarlane, J. C. Haigh, G. M. Cant, A. M. Bodie and J. S. Lawson 100
Accidental poisoning in the first three years of life *A. L. Beautrais, D. M. Fergusson and F. T. Shannon* 104
Reducing the child accident toll: education concerning accident risks, and their circumvention *John Pearn* 110
Atlanto-axial dislocation with spinal cord compression in Down syndrome
L. K. Shield, D. R. V. Dickens and F. Jensen 114
Tracheopexy — aorto-tracheal suspension for severe tracheomalacia *Douglas Cohen* 117
Cor triatriatum associated with unilateral anomalous pulmonary venous drainage in infants 122
P. C. Roper, J. S. Wright, R. M. McCredie and M. J. Swinburn
Australian College of Paediatrics: Abstracts of papers presented at the Twenty-Sixth Annual Meeting, May 1981 125
Australian Association of Paediatric Surgeons: Abstracts of papers presented at Annual Scientific Meeting, May 1981 150
Trade Exhibition 154
Book Reviews 156
Publications Received 159

No. 3, SEPTEMBER, 1981

Report on the ethics of research in children 162
Report by the Perinatal Medicine Standing Committee of the Australian College of Paediatrics — Use of hexachlorophene on the skin of neonates 163
Editorial Comment — Genetic counselling in insulin-dependent diabetes 165
Letters to the Editor 166
A social study of dwarfing conditions.
I. The reactions and questions of parents of children with bone dysplasias 167
II. The experience of children with bone dysplasias, and of their parents 172
III. The social and emotional experiences of adults with bone dysplasias *Lucille Stace and David M. Danks* 177
Medical expenses of neonatal intensive care for very low birthweight infants *V.Y.H. Yu and B. Bajuk* 183
Breast milk feeding in very low birthweight infants *V. Y. H. Yu, J. Jamieson and B. Bajuk* 186
Breast-feeding, gastrointestinal and lower respiratory illness in the first two years *David M. Fergusson, L. John Horwood, Frederick T. Shannon and Brent Taylor* 191
Dietary studies on Tasmanian High School students: intakes of energy and nutrients *David R. Woodward, Patrick P. Lynch, Malcolm J. Waters, A. Roderick Maclean, Wendy E. Ruddock, John W. Rataj and J. Nuli Lemoh* 196
Early-onset bacterial pneumonia: a comparison with severe hyaline membrane disease *Garth I. Leslie, Roger D. Scurr and Peter A. Barr* 202
Failure of oral N-acetylcysteine to improve the malabsorption of cystic fibrosis *E. A. Mitchell and R. B. Elliott* 207
Giardiasis among children in the City of Logan, South East Queensland *Peter F. L. Boreham, Joanne Dondey and Robyn Walker* 209
Compliance with immunization programmes *J. Christodoulou, S. Clarke and N. Buchanan* 213
Use of medications in infancy *R. A. Cockington, N. Don and L. Gilbert* 216
Commentary: Drugs in paediatric practice, I, II, and III *N. Buchanan* 219
Benefits of HLA typing a family with diabetes *John W. Cox and Geoffrey M. Bourke* 224
Hutchinson teeth *Robert Southby* 226
Paediatric Research Society of Australia: Abstracts of papers presented at the 14th Annual Meeting, May 1981 227
Book Reviews 238

No. 4, DECEMBER, 1981

Eric Dawson Burnard — An appreciation 244
Eric Dawson Burnard — Biography *Thomas Stapleton* 245
Ethical issues in neonatology. The Turner-Gibson Oration, 1981 *R. H. Phibbs* 247
The maturation of respiratory patterns in normal full term infants during the first six postnatal months. I. Sleep states and respiratory variability. II. Sleep states and apnoea *T.M. Adamson, S. Cranage, J. E. Maloney, F. E. Wilson and V. Y. H. Yu* 250
Neonatal intensive care for extremely low birthweight infants — a dilemma in perinatal medicine *V. Y. H. Yu, B. Bajuk and E. Hollingsworth* 257
Minor neurological abnormalities during the first year of life in infants of birth weight <1500g *D. I. Tudehope, Yvonne R. Burns, M. O'Callaghan and Heather Mohay* 262
Intrauterine growth charts from 24 to 29 weeks' gestation *W. H. Kitchen, B. Bajuk, J. V. Lissenden and V. Y. H. Yu* 265
The effect of gestational age on the incidence and duration of recurrent apnoea in newborn babies *D. J. Henderson-Smart* 269
Perinatal factors affecting survival of very low birthweight infants — a study from two hospitals *B. Bajuk, W. H. Kitchen, J. V. Lissenden and V. Y. H. Yu* 273
Parental attitudes towards the mode of death of their newborn infants *P. J. Pemberton* 277
Bacterial infection of peripheral artery cannulae in newborn infants *G. I. Leslie, P. A. Barr and R. C. Pritchard* 281
Rickets in extremely low birthweight infants *G. J. Cleghorn, D. I. Tudehope and J. P. Masel* 283
Theophylline in treatment of apnoea of prematurity *J. M. Gupta, H. P. Mercer and W. W. K. Koo* 285
Aetiological associations in infantile colic: an hypothesis *D. B. Thomas* 290
Hypoxaemia during mechanical ventilation for severe hyaline membrane disease following sedation with morphine sulphate *P. A. Barr* 292
Neonatal intestinal obstruction associated with oral calcium supplementation *G. J. Cleghorn and D. I. Tudehope* 296

Contents and Index, Volume 17 302

INDEX TO VOLUME 17, 1981

SUBJECT INDEX — VOLUME 17, 1981

A

Accidental poisoning in the first three years of life, **104**

Accidents and playground equipment, **100**

N-acetylcysteine, oral, failure of to improve the malabsorption of cystic fibrosis, **207**

A critical appraisal of myelography at the Royal Children's Hospital, Brisbane, 1977-1979, **15**

Aetiological associations in infantile colic: an hypothesis, **292**

Alcohol consumption of Tasmanian High School pupils, **24**

α 1 antitrypsin deficiency, Möbius syndrome in a patient with, **64**

"A Man and his Hospital" — The Clubbe Oration, 1980, **5**

Aorto-tracheal suspension for severe tracheomalacia — tracheopexy, **117**

Apnoea
and sleep states (II). I. Sleep states and respiratory variability. The maturation of respiratory patterns in normal full term infants during the first six postnatal months, **250**
of prematurity, theophylline in treatment of, **290**
recurrent, in newborn babies, the effect of gestational age on the incidence and duration of, **273**

Asthma, the tube spacer in children with, **56.**

B

Bacterial infection of peripheral artery cannulae in newborn infants, **283**

Benefits of HLA typing with diabetes, **224**

Bone dysplasias.
A social study of dwarfing conditions.
I. The reactions and questions of parents of children with bone dysplasias, **167**
II. The experience of children with bone dysplasias, and of their parents, **172**
III. The social and emotional experiences of adults with bone dysplasias, **177**

Book Reviews, **66, 156, 238, 300**

Botulism, infant, in Australia — a case report, **59**

Brainstem dysfunction, recurrent, preceding systemic manifestations of childhood lupus erythematosus, **62**

Breast-feeding, gastrointestinal and lower respiratory illness in the first two years, **191**

Breast milk feeding in very low birthweight infants, **186**

British Paediatric Association Classification of Diseases, **58**

Broken and retained rectal thermometers in infants and young children, **93**

Burnard, Eric Dawson, **244**

C

Calcium supplementation, oral, neonatal intestinal obstruction associated with, **298**

Cancer, family responses and mechanism of adjustment following death of children with, **85**

Cannulae, peripheral artery, bacterial infection of in newborn infants, **283**

Characteristics of Down syndrome infants and their families, **40**

Child accident toll, reducing the: education concerning accident risks and their circumvention, **110**

Children, giardiasis among in the City of Logan, South East Queensland, **209**
with cancer, family responses and mechanism of adjustment following death of, **85**

Clubbe Oration, 1980 — "A Man and his Hospital", **5**

Colic, infantile, aetiological associations in: an hypothesis, **292**

Commentary: Drugs in paediatric practice, I, II and III, **219**

Compliance with immunization programmes, **213**

Cor triatriatum associated with unilateral anomalous pulmonary venous drainage in infants, **122**

Cystic fibrosis
and leukaemia, patterns of management responsibility in the care of children with, **35**
failure of oral *N*-acetylcysteine to improve the malabsorption of, **207**
the treatment of malabsorption in, with pancreatic extracts and inhibition of gastric acidity by antacids and cimetidine, **89**

D

Developmental screening in infancy — a critical appraisal of its value, **20**

Diabetes
benefits of HLA typing a family with, **224**
insulin-dependent, genetic counselling in: Editorial comment, **165**

Dietary studies on Tasmanian High School students: intakes of energy and nutrients, **196**

Dods, Sir Lorimer, 1900-1981, **70**

Down syndrome infants and their families, characteristics of, **40**

Drugs in paediatric practice, I, II, and III: Commentary, **219**

Duodenal juice collection, a simple method of in association with small bowel biopsy in children, **54**

Dwarfing conditions, a social study of.
I. The reactions and questions of parents of children with bone dysplasias, **167**
II. The experience of children with bone dysplasias, and of their parents, **172**
III. The social and emotional experiences of adults with bone dysplasias, **177**

E

Early-onset bacterial pneumonia: a comparison with severe hyaline membrane disease, **202**

Editorial Comments:
Developmental screening in infancy — a critical appraisal of its value, **1**
Genetic counselling in insulin-dependent diabetes, **165**
The hazards (?) of thermometry, **77**

Education concerning accident risks, and their circumvention: reducing the child accident toll, **110**

Effect of gestational age on the incidence and duration of recurrent apnoea in newborn babies, **273**

Energy and nutrients, intakes of: dietary studies on Tasmanian High School students, **196**

Ethical issues in neonatology. The Turner-Gibson Oration, 1981, **247**

Ethics of research in children, report on, **162**

F

Failure of oral *N*-acetylcysteine to improve the malabsorption of cystic fibrosis, **207**

Family responses and mechanism of adjustment following death of children with cancer, **85**

Fatty acid composition of infant formulae, **46**

G

Gastrointestinal and lower respiratory illness in the first two years, breastfeeding, **191**

Genetic counselling in insulin-dependent diabetes: Editorial comment, **165**

Gestation, intrauterine growth charts from 24 to 29 weeks', **269**

Gestational age, the effect of, on the incidence and duration of recurrent apnoea in newborn babies, **273**

Giardiasis among children in the City of Logan, South East Queensland, **209**

Growth charts, intrauterine, from 24 to 29 weeks' gestation, **269**

Growth retarded infants, severely, massive pulmonary haemorrhage: a cause of sudden unexpected deaths in, **32**

H

Haemorrhage, massive pulmonary: a cause of unexpected deaths in severely growth retarded infants, **32**

Hazards (?) of thermometry. Editoral comment, **77**

Hexachlorophene, use of, on the skin of neonates. Report by the Perinatal Medicine Standing Committee of the Australian College of Paediatrics, **163**

HLA typing a family with diabetes, benefits of, **224**

Hutchinson teeth, **226**

Hyaline membrane disease
severe, a comparison with: early-onset bacterial pneumonia. **202**
severe, following sedation with morphine sulphate, hypoxaemia during mechanical ventilation for, **296**

Hypoxaemia during mechanical ventilation for severe hyaline membrane disease following sedation with morphine sulphate, **296**

I

Immunization
of low birthweight infants, statement on, **76**
programmes, compliance with, **213**

Infancy
developmental screening in — a critical appraisal of its value, **20**
use of medications in, **216**

Infantile colic, aetological associations in: an hypothesis, **292**

Infant
botulism in Australia — a case report, **59**
formulae, fatty acid composition of, **46**

Infants
newborn, bacterial infection of peripheral artery cannulae in, **283**
of birthweight <1500g, minor neurological abnormalities during the first year of life of, **265**
severely growth retarded, massive pulmonary haemorrhage: a cause of sudden unexpected deaths in, **32**

Infection, bacterial, of peripheral artery cannulae in newborn infants, **283**

Intensive care, neonatal, for extremely low birthweight infants. A dilemma in perinatal medicine, **262**

Intestinal obstruction, neonatal, associated with oral calcium supplementation, **298**

Intrauterine growth charts from 24 to 29 weeks' gestation, **269**

Intravenous cephamandole pharmacokinetics and intramuscular bioavailability in neonates, **83**

L

Learning problems, screening for in the first year at school, **29**

Letters to the Editor: **4, 75, 166**

Leukaemia and cystic fibrosis, patterns of management responsibility in the care of children with, **35**

Low birthweight infants
extremely, neonatal intensive care for. A dilemma in perinatal medicine, **262**

extremely, rickets in, **285**
statement on immunization of, **76**
very, breast milk feeding in, **186**
very, medical expenses of neonatal intensive care for, **183**
very, perinatal factors affecting survival of. A study from two hospitals, **277**

Lower respiratory and gastrointestinal illness in the first two years, breast-feeding, **191**

Lupus erythematosus, childhood, recurrent brainstem dysfunction preceding systemic manifestations of, **62**

M

Malabsorption, the treatment of in cystic fibrosis with pancreatic extracts and inhibition of gastric acidity by antacids and cimetidine, **89**

Massive pulmonary haemorrhage: a cause of sudden unexpected deaths in severely growth retarded infants, **32**

Maturation of respiratory patterns in normal full term infants furing the first six postnatal months. I. Sleep states and respiratory variability. II. Sleep states and apnoea, **250**

Medical expenses of neonatal intensive care for very low birthweight infants, **182**

Medications, use of in infancy, **216**

Minor neurological abnormalities during the first year of life in infants of birth weight <1500g, **265**

Möbius syndrome in a patient with α 1 antitrypsin deficiency, **64**

Morphine sulphate, hypoxaemia during mechanical ventilation for severe hyaline membrane disease following sedation with, **296**

Myelography at the Royal Children's Hospital, Brisbane, 1977-1979, a critical appraisal of, **15**

N

Neonatal
brain, real-time scanning of the, **78**
intensive care for extremely low birthweight infants. A dilemma in perinatal medicine, **262**
intensive care, medical expenses of, for very low birthweight infants, **182**
intestinal obstruction associated with oral calcium supplementation, **298**

Neonates
intravenous cephamandole pharmacokinetics and intramuscular bioavailability in, **83**
use of hexachlorophene on the skin of: Report by the Perinatal Medicine Standing Committee of the Australian College of Paediatrics, **162**

Neonatology, ethical issues in. The Turner-Gibson Oration, 1981, **247**

Neurological abnormalities, minor, during the first year of life in infants of birth weight <1500g, **265**

Newborn
babies, the effect of gestational age on the incidence and duration of recurrent apnoea in, **273**
infants, bacterial infection of peripheral artery cannulae in, **283**
infants, parental attitudes towards the mode of death of their, **281**
transport in metropolitan Sydney: experience with a newborn intensive care unit based regional transport service, **95**
urinary β2 microglobulin in the, **44**

Nutrients and energy, intakes of: dietary studies on Tasmanian High School students, **196**

O

Oral calcium supplementation, neonatal intestinal obstruction associated with, **298**

P

Paediatric practice, drugs in, I, II and III. Commentary, **219**

Parental attidudes towards the mode of death of their newborn infants, **281**

Patterns of management responsibility in the care of children with cystic fibrosis and leukaemia, **35**

Perinatal factors affecting survival of very low birthweight infants. A study from two hospitals, **277**

Perinatal medicine, a dilemma in. Neonatal intensive care for extremely low birthweight infants, **262**

Pharmacokinetics, intravenous cephamandole, and intramuscular bioavailability in neonates, **83**

Playground equipment and accidents, **100**

Pneumonia, early-onset bacterial: a comparison with severe hyaline membrane disease, **202**

Poisoning, accidental, in the first three years of life, **104**

Prematurity, apnoea of, theophylline in treatment of, **290**

Proceedings:
Australian Association of Paediatric Surgeons: Abstracts of papers presented at Annual Scientific Meeting, May 1981, **150**
Australian College of Paediatrics: Abstracts of papers presented at the Twenty-Sixth Annual Meeting, May 1981, **125**
Paediatric Research Society of Australia: Abstracts of papers presented at the 14th Annual Meeting, May 1981, **227**

Publications received, **63, 159, 237, 302**

Pulmonary haemorrhage, massive: a cause of sudden unexpected deaths in severely growth retarded infants, **32**

R

Real-time scanning of the neonatal brain, **78**

Rectal thermometers, broken and retained, in infants and young children, **93**

Recurrent brainstem dysfunction preceding systemic manifestations of childhood lupus erythematosus, **62**

Reducing the child accident toll: education concerning accident risks, and their circumvention, **110**

Report
by the Perinatal Medicine Standing Committee of the Australian College of Paediatrics — use of hexachlorophene on the skin of neonates, **163**
of an expert committee for the Australian College of Paediatrics — sudden infant death syndrome, **2**
on the ethics of research in children, **162**

Research in children, report on the ethics of, **162**

Respiratory patterns, the maturation of in normal full term infants during the first six postnatal months. I. Sleep states and respiratory variability. II. Sleep states and apnoea, **250**

Reviewers 1980, **68**

Rickets in extremely low birthweight infants, **285**

S

Scanning, real-time, of the neonatal brain, **78**

Screening for learning problems in the first year at school, **29**

Simple method of duodenal juice collection in association with small bowel biopsy in children, **54**

Sleep states and respiratory variability (I). II. Sleep states and apnoea. The maturation of respiratory patterns in normal full term infants during the first six postnatal months, **250**

Small bowel biopsy in children, a simple method of duodenal juice collection in association with, **54**

Social study of dwarfing conditions.
I. The reactions and questions of parents of children with bone dysplasias, **167**
II. The experience of children with bone dysplasias, and of their parents, **172**
III. The social and emotional experiences of adults with bone dysplasias, **177**

Statement on immunization of low birthweight infants, **76**

Sudden infant death syndrome — report of an expert comittee for the Australian College of Paediatrics, **2**

T

Tasmanian High School pupils, alcohol consumption of, **24**

Tasmanian High School students, dietary studies on: intakes of energy and nutrients, **196**

Theophylline in treatment of apnoea of prematurity, **290**

Thermometers, rectal, broken and retained, in infants and young children, **93**

Thermometry, the hazards (?) of. Editorial comment, **77**

Tracheomalacia, severe, aorto-tracheal suspension for — tracheopexy, **117**

Tracheopexy — aorto-tracheal suspension for severe tracheomalacia, **117**

Treatment of malabsorption in cystic fibrosis with pancreatic extracts and inhibition of gastric acidity by antacids and cimetidine, **89**

Tube spacer in children with asthma, **56**
